

We are indebted to U. A. Uden for a neat job of work he did on our press that was quite difficult. He cut a left handed double thread on a roller and a bar to the same, making a vibration of nearly three inches. If our people only knew it, there is many a difficult break that this man can repair and say delays and heave expense in relapsing the broken or worn parts with new ones.

U. A. Uden met with the misfortune of having his hand caught between the wheel and brake while unloading the new 50 horse power Elmore car of John P. DeNeui Monday at the depot tearing his left hand badly. Dr. McKinney was called to dress the wound and Mr. Uden is resting as well as could be expected.
